1.1 - Field Number: This is the field number that appears on the 2000 imagery of the property, which is attached to this letter and is also available on the internet as indicated earlier in the letter.

1.2 - Measured Area (ha): This is the measured area in hectares of each field in the year 2000.

1.3 - Irrigated / Non-Irrigated: This indicates whether the field was irrigated or not in the year 2000.

1.4 - Crop Type: This indicates the type of crop being cultivated in the year 2000.

1.5 – Irrigation Method: This indicates the method used for irrigation of crops in the year 2000.

1.6 - Quota (m³/ha/annum): This refers to the unit water application rate provided by the user. Where no value was provided, the unit water application rate is based on typical usage for crops in your area. For water users within Irrigation Boards and Water User Associations generalised quotas have been applied based on information obtained from Irrigation Boards and Water User Association representatives.

1.7-Total Volume Used (m³/annum): This is calculated by multiplying Measured Area(Column 1.2) by the Quota (Column 1.6).

If you are not the water user of any of the fields please provide the contact details of the applicable water user.

NOTA: Watergebruik wat nie vir kommersiële doeleindes gebruik word nie (Skedule 1 watergebruik) hoef nie geregistreer te word nie en word nie in hierdie table getoon nie. Dit sluit huise, private tuine, huishoudelike gebruik, plaaswerkerhuise, ens. in.

Table 2: Non-irrigation water use during the qualifying period (as at year 2000)

2.1-WaterUseSector: This refers to the sector which could be Water Supply Service, Industry (Non Urban), Forestry or Feedlots.

2.2-Water Use Purpose (2000) (specify details): Please provide specific information regarding the purpose for which the water is used in the year 2000, e.g. winery.

2.3-2000 water use (m³/annum): Please indicate the volume of water actually used in the year 2000.

Tabel 3: Waterbronne

3.1-Tipe Bron: Vul by komende rye in, soos benodig. Inligting oor waterbronne is vooraf voltooi, waar dit bekend is.

3.2 - Naam van Bron: Dui asseblief die naam van die rivier, boorgat, Watergebruikersvereniging / Besproeiingsraad aan, van waar die water verkry word. Indien water vanaf 'n spesifieke skema binne 'n Watergebruikersvereniging verkry word, moet dit so aangedui word. Winter en Somer water toekennings van Watergebruikersvereniging/Besproeiingsrade moet in aparte lyntjies ingevul word.

3.3 - Gemagtigde Volume Beskikbaar Vanaf Bron: Dui die volume water wat van elke waterbron onttrek word aan. Hierdie is die volume wat u as Bestaande Wettige Watergebruik wil laat bevestig.

3.4 - Jaarlikse Volume Gebruik: Dui die volume water aan wat vanaf die verskeie water bronne onder die relevante watergebruik sektor gebruik is. Die som van elke kolom in Kolom 3.4 moet gelyk wees aan die totale water gebruik in Tabel 1 (vir besproeiing) en Tabel 2 (vir nie-besproeiing).

NOTA: Die geregistreerde watergebruik is slegs 'n opname (deur u) van die watergebruik en impliseer nie 'n Bestaande Wettige Watergebruik of 'n aansoek vir 'n watergebruiksreg nie. Vul asseblief Kolomme 3.3 en 3.4 in ongeag of die volume geregistreer is of nie.

Table 3: Water Sources

3.1-ResourceType: Fill in additional rows as necessary. Water source information has been pre-populated where it is available.

3.2 - Resource Name: Please indicate the name of river, borehole or Water User Association/Irrigation Board. Where water is obtained from a specific scheme within a Water User Association also note this. Winter and Summer allocations from Water User Associations / Irrigation Boards are to be noted on separate lines.

3.3 - Authorised Volume From Resource: Indicate the volume taken from the water resource. This is the volume that you would like to be verified as an Existing Lawful Use.

3.4 - Annual Volume Used: Indicate the volume of water used from the various sources under the relevant water use sector. The sum of each column in Column 3.4 must equal the sum of total water use from Table 1 (for irrigation) and Table 2 (for non-irrigation uses).

NOTE: The registered water use is only a recording (by you) of the water use and does not imply an Existing Lawful Water Use or an application for a water use entitlement. Please fill in Columns 3.3 and 3.4 regardless of whether or not the volume is registered.
